

What do Engineers do?

Select a type of engineer from the grid below.

Automotive	Chemical	Civil
Electrical	Electronic	Environment
Geotechnical	Materials	Mechanical
Oil	Optomechanical	Power Plant
Structural	Transport	Water resource

Using computer research, find out the following information for your type of engineer and produce a power point presentation:

- What do they do?
- Where do they work?
- How much do they earn?
- What qualifications do they need?
- Where can you train?
- Do you need to go to university? An apprenticeship?
- Who else do they work with?
